ACADEMIC & RESEARCH PROFESSIONAL | TECHNICAL TRAINER

PROFESSIONAL SUMMARY

Computer Engineering and Systems & Software Engineering professional with over five years of experience spanning technical instruction, academic support, research, IT operations, software systems, and digital training. Holds a Master of Engineering (M.Eng.) in Systems & Software Engineering and a Bachelor of Engineering (B.Eng.) in Computer Engineering from the University of Uyo. Experienced in teaching Python programming, digital literacy, foundational computing, cybersecurity awareness, and technology concepts to learners with varying levels of technical knowledge. Research interests include artificial intelligence, machine learning, cybersecurity, software systems engineering, blockchain analytics, and educational technology.

CORE COMPETENCIES

Research & Academic Support

- Teaching, Research & Academic Support
- Student Mentoring & Academic Support
- Teaching Assistance & Technical Instruction
- Python Programming Instruction
- Computer Fundamentals & Digital Literacy Training
- Curriculum & Training Material Development
- Student Assessment & Structured Feedback
- Research & Technical Documentation
- Technical Research & Data Analysis
- Communication & Presentation Skills
- Virtual Learning Support

Computing & Technical Expertise

- Python Programming
- JavaScript
- SQL Database Support
- REST API Integration
- Artificial Intelligence & Machine Learning
- Data Analysis & Feature Engineering
- Graph Machine Learning
- Linux & Ubuntu Systems
- Windows Systems
- End-User Technical Support

Academic, Productivity & Digital Tools

- Microsoft Office Suite
- Google Workspace
- Windows
- Linux & Ubuntu
- Visual Studio Code (VS Code)
- Google Colab
- Jupyter Notebook
- Git & GitHub
- Zoom
- Slack & Microsoft Teams
- Data & Machine Learning Tools

Cybersecurity & Digital Systems

- Cybersecurity Fundamentals & Awareness
- Data Security & Access Control
- Technical Compliance Support
- Security Monitoring & Reporting
- Digital Safety Training
- Network Security Fundamentals
- Incident Management & Root Cause Analysis
- Cybersecurity Risk Awareness
- TryHackMe Practical Labs
- Open-Source Security Too

PROFESSIONAL EXPERIENCE

Telus International - Remote

Search Engine Evaluator | Feb 2024 – Present

- Evaluate and validate system-generated outputs using established quality and technical guidelines.
- Conduct analytical reviews of digital information and identify inconsistencies, errors, and quality issues.
- Apply research, critical thinking, and analytical reasoning when evaluating information and system outputs.
- Document findings and provide structured feedback to support continuous quality improvement. Maintain high levels of accuracy and productivity while managing assignments independently in a remote environment.
- Adapt to evolving technologies, evaluation standards, and technical guidelines.

JUHRI Hospital – Afua Ibiono*IT Lead | Jun 2023 – Feb 2025*

- Provided technical and operational support to clinical and administrative staff across the organisation.
- Supported SQL-based database and operational activities.
- Developed Python automation scripts that improved reporting processes and reduced manual workload.
- Provided staff guidance and training on system navigation, software usage, and effective technology adoption.
- Developed technical documentation, support materials, and internal knowledge resources.
- Investigated and resolved software, system, account, connectivity, and user-access issues.
- Communicated technical concepts and solutions clearly to non-technical users.
- Coordinated system maintenance, troubleshooting, and technical activities with relevant stakeholders.

Teencoders – Port Harcourt, Nigeria*IT Support / Instructor | May 2021 – Apr 2023*

- Delivered instruction in Python programming, digital literacy, foundational computing, and technology concepts. Trained more than 500 learners through practical, interactive, and learner-focused teaching methods.
- Developed instructional materials, technical guides, exercises, presentations, and learning resources.
- Assessed coding and technical assignments and provided structured feedback to learners.
- Provided individual and group mentoring to support learners with different levels of technical knowledge.
- Simplified complex technical concepts and communicated them in clear and understandable terms.
- Facilitated virtual classes, technical sessions, and learner support through Zoom and cloud-based platforms.
- Responded to asynchronous learner questions and provided follow-up academic and technical support.
- Trained over 500 learners using practical and interactive teaching methods.

NOWA Digital Academy – Uyo, Nigeria*CTO / Training Manager | Nov 2019 – Apr 2021*

- Coordinated technical training programmes focused on digital literacy, computing, and technology adoption.
- Delivered and supervised technical instruction and practical digital-skills training.
- Managed digital learning systems and technology resources used by staff and learners.
- Developed training materials, technical documentation, operational procedures, and user guides.
- Supported staff and learners with computer systems, software, access, and other technology-related challenges.
- Deployed and supported Google Workspace and digital collaboration platforms for teaching and organisational operations.
- Supported learner onboarding and technology adoption.
- Supervised technical operations, training activities, and digital learning resources.

Radio Nigeria Atlantic 104.5 FM – Uyo, Nigeria*IT Support Intern | Feb 2018 – Aug 2018*

- Provided technical assistance for desktop systems and internal IT infrastructure.
- Assisted with software updates, system monitoring, and troubleshooting activities.
- Supported operational continuity through preventive maintenance and technical support.
- Worked with technical teams to ensure reliable system functionality.

EDUCATION

Master of Engineering (M.Eng.) – Software & Systems Engineering

University of Uyo - 2026

Bachelor of Engineering (B.Eng.) – Computer Engineering

University of Uyo - 2022

CERTIFICATIONS

- Google Cybersecurity Certificate – 2025
- ISC2 Candidate – 2025
- AWS Cloud Practitioner – In Progress
- Cisco IT Essentials 8 – 2024
- SOC Member – LetsDefend, 2025

- Web3 Education – Binance, 2023
- 80+ Hands-On Cybersecurity Labs – TryHackMe

RESEARCH & ACADEMIC INTERESTS

- Artificial Intelligence & Machine Learning
- Artificial Intelligence & Machine Learning
- Graph Machine Learning
- Cybersecurity & Digital Safety
- Blockchain Analytics
- Anomaly & Fraud Detection
- Software Systems Engineering
- Data Analytics
- Network Analysis
- Educational Technology
- Digital Transformation

PROJECTS & ACHIEVEMENTS

- Spearheaded digital safety workshops for 200+ non-technical users, improving awareness and compliance.
- Developed diagnostic and automation tools using Python, cutting manual resolution time by 40%.
- Completed 80+ hands-on labs on TryHackMe, covering penetration testing, web exploitation, network security, and incident response simulations.
- Trained over 500 learners on Python, digital literacy, and online safety at Teencoders & NOWA Digital Academy.
- Facilitated Slack discussions, answered asynchronous questions, and hosted 1:1 Zoom office hours.
- Delivered remote customer support via Zoom, AnyDesk, and Slack for international clients.
- Created internal knowledge bases and FAQs, reducing support workload by 20%.
- Delivered structured feedback and graded coding/security projects.

AWARDS & LEADERSHIP

- *Best Student Award* – Chainspace Bootcamp Cohort 2 (2024).
- *Outstanding Award* – Head of Communication & Technical, NYSC Orientation Camp (2023).
- President – QIC Science College Alumni Association (2022 – Present).
- Outreach Coordinator – FECA Nigeria, Ikot Abasi Chapter (2012 – 2016).

PROFESSIONAL MEMBERSHIPS

- OWASP Lagos Chapter (since 2025).
- Association of Computer Engineering Students (since 2015).
